

Costing software 4cost-scenarioanalyser

Transparent determination
of supplier overheads

Your benefits

- Negotiate in procurement based on facts instead of estimates
- Gain insights into how your suppliers' prices are really calculated and uncover hidden costs
- Compare suppliers objectively and immediately identify potential for efficiency gains
- Find specific areas for optimisation and savings
- Make make-or-buy and supplier decisions based on clear data
- Work with your suppliers fairly, transparently and on an equal footing
- Service guarantee: Comprehensive training programme for working with the software and technical support

Areas of application

- Overhead cost analyses
- Cost centre accounting
- Contribution margin accounting
- Application scenarios

Top features

- Parametric calculation of manufacturers' and service providers' overheads with just five company-specific entries
- Breakdown of individual overhead rates
- Supplier questionnaire for standardised data queries
- Integrated benchmark data
